Overview

Dr. Wasif Raza is working as an Associate Director- Colorectal and General Surgeon at Apollomedics Hospital Lucknow. He is UK-trained, fellowship-certified Colorectal & General Surgeon with a rich legacy of surgical excellence. With over 12 years of experience—including 8 years in the UK's NHS system—he brings global expertise in the diagnosis and treatment of bowel diseases, colorectal cancer, anorectal disorders, and complex general surgical conditions.

A pioneer in minimally invasive colorectal surgery in India, Dr. Raza also specializes in minimal invasive surgery techniques for conditions like piles, fistula, fissures, hernias, appendicitis, and gallbladder diseases. He is known for his meticulous approach, quick post-op recovery plans, and deep commitment to patient education and comfort.

Holding prestigious fellowships from the Royal College of Surgeons (UK) and the American College of Surgeons (USA), Dr. Raza is among the very few in India with formal training in colorectal surgery. He is also a published researcher and a respected trainer in surgical education.
