<sup>1</sup> Excluding non-recurring revenue from COVID vaccination in Q3 FY22

**Dr. Prathap C Reddy, Chairman, Apollo Hospitals Group** said, “At Apollo Hospitals, our sustained focus on integrated healthcare with a holistic approach is creating a new model for delivery of healthcare.

*Today, our vertically integrated care delivery begins from prevention through Digital Health including Apollo ProHealth and extends to remote care and management through Apollo 24/7. It includes Diagnostics and Retail Health with our Clinics, Dialysis Centres, Birthing Centres and Dental Centres. It extends to our tertiary and quaternary care Hospitals with Centres of Excellence in various specialties such as cancer, heart disease, and more.*

*We are supporting doctors across India with tools such as our AI CVD risk prediction tool and our recently launched Apollo Clinical Intelligence Engine developed using the latest in AI and ML. Our goal is to empower doctors everywhere with the best clinical knowledge that Apollo Hospitals has developed over 40 years. Our e-ICUs with a central command centre enable small nursing homes in remote locations to provide the best standards of critical care, with seamless support from Apollo practitioners.*

*Our clinical excellence is driven by a strong emphasis on evidence-based medicine. Our 39+ years of experience with committed expert doctors and healthcare professionals is supported by a strong training and development program. Our industry-leading clinical outcomes are also a result of our investments in cutting-edge medical technology such as the Apollo Proton Centre, advanced robotic systems and pioneering adoption of AI and digital health. We will continue to strive to improve patient outcomes through data-driven insights.*

*Further, preventive health will remain a key focus area. Apollo 24/7 will drive healthier lifestyle choices and enable early detection and management of NCDs (non-communicable diseases).*

*I am proud to say that the results of these efforts are evident in our quarterly results. I am confident that our unwavering dedication to providing the highest quality of healthcare will continue to drive our success in serving our patients in the years to come.”*

### **About Apollo Hospitals Enterprise Ltd. (AHEL)**

It was in 1983 that Dr. Prathap Reddy made a pioneering endeavour by launching India's first corporate hospital – Apollo Hospitals in Chennai. Over the years, Apollo Hospitals is the world's leading cardiac center and world's leading private cancer care provider with overall 190,000 surgical discharges. Apollo Hospitals is also the world's largest private cancer care provider and runs the world's leading solid organ transplant program. As Asia's largest and most trusted healthcare group, its presence includes 10,006 beds across 71 Hospitals, 5196 Pharmacies, over 300 Primary Care and Diagnostic Clinics, 148 plus Telemedicine Centres.

As an integrated healthcare service provider with Health Insurance services, Global Projects Consultancy capability, over 15 medical education centres and a Research Foundation with a focus on global Clinical Trials, epidemiological studies, stem cell & genetic research Apollo Hospitals has been at the forefront of new medical breakthroughs with the most recent investment being that of commissioning the first Proton Therapy Center in Chennai across Asia, Africa, and Australia. Every four days, the Apollo Hospitals Group touches a million lives, in its mission to bring healthcare of International standards within reach of every individual.

In a rare honour, the Government of India issued a commemorative stamp in recognition of Apollo's contribution, the

first for a healthcare organization. Apollo Hospitals Chairman, Dr. Prathap C Reddy, was conferred with the prestigious Padma Vibhushan in 2010. For more than 35 years, the Apollo Hospitals Group has continuously excelled and maintained leadership in medical innovation, world-class clinical services, and cutting-edge technology. Our hospitals are consistently ranked amongst the best hospitals globally for advanced medical services and research.
